Professional Summary

SQL Server Database Administrator with 4 years of experience supporting production databases across on-premises and AWS environments. Skilled in provisioning, upgrades, performance troubleshooting, backup/restore operations, and automation using PowerShell and T-SQL. Practical exposure to high availability setups, storage optimization, security administration, and compliance-driven operations. Also experienced in assisting multi-platform database environments including MySQL, PostgreSQL, and Oracle. Seeking opportunities to apply and expand my database automation, optimization, and cloud skills in environments that encourage problem-solving and operational excellence.

Technical Skills

Database Technologies

MS SQL Server 2008-2022, MySQL, Oracle, PostgreSQL

Performance Tuning

Query optimization, Index management, Execution plan analysis, Statistics, TempDB Optimization

Scripting & Automation

PowerShell, T-SQL, SQL Agent

Cloud & Infrastructure

AWS RDS, AWS EC2, AWS S3, Terraform, AWS CloudWatch, GitHub Desktop, Windows Server, Linux (Basic)

Backup, Recovery & HA/DR

AlwaysOn Availability Groups, Log Shipping, Backup and Restore, Failover Cluster

Monitoring & Database Tools

PgAdmin, LogicMonitor, ServiceNow, SSRS, SQL Server Management Studio (SSMS), SSIS, SQL Profiler

Professional Experience

Tata Consultancy Services Ltd

13th Dec 2021 – Present

SQL Database Administrator

Kolkata, West Bengal

- Administered **200+ SQL Server instances** (2012–2022) across production, UAT, on-prem, and AWS environments - supporting provisioning, installation, and configuration.
- Performed 10+ **database version upgrade and migration** from (2012/2014/2016) to 2019/2022), handling validation, cutover execution, and post-migration checks.
- Performed **patching cycles, CU deployments, login/security administration, and TDE configuration** aligned with compliance standards.
- Performed **routine and ad-hoc backup/restore requests**, including PITR and non-production environment refreshes for multiple development teams.
- Implemented **automated maintenance routines** (index rebuilds, DBCC, validation) improving reliability across **100+ instances**.
- Troubleshooted performance issues using execution plans, DMVs, wait stats, and I/O analysis — driving **10–15% improvement** in key workloads.
- Improved database performance through **TempDB tuning, blocking/deadlock remediation, and query refinement** for application teams.
- Automated daily **health and job monitoring scripts** using PowerShell/T-SQL reducing manual effort by **30–40%** and improving response time.
- Managed **100+ SQL Server Agent jobs**, including scheduling, alerting, and incident resolution workflows.
- Optimized storage footprint by **purging/partitioning 1.5–2 TB datasets**, reducing maintenance duration and space usage.
- Supported clustered/HA configurations and assisted in failover testing and readiness activities; familiar with **AlwaysOn AGs, Failover Clusters Instance**, and **Log Shipping concepts**.
- Support **multi-platform** databases including **MySQL, PostgreSQL**, and **Oracle** for provisioning, patching, and troubleshooting.
- Worked within **ITIL framework** for change/incident management, documented procedures, and delivered 24×7 on-call support.

Certifications & Trainings

PostgreSQL DBA

2025

RJP INFOTEK

 Certificate Credential

Oracle Database Administrator DBA

2024

Udemy

70-462: SQL Server Database Administration (DBA)

2022

Udemy

Education

Jharkhand Rai University, Ranchi

Aug 2018 - Jul 2021

Bachelor of Computer Application

Computer & Information Technology

Vivekananda Central School, Hazaribagh

May 2016 - Jun 2018

12th Standard

Science (PCM)

Awards & Recognition

Star Performer – Certificate of Excellence

Jan 2025

TCS & Tapestry

Honored for outstanding contribution in SQL Server and RDS patching, along with successful storage optimization initiatives.

Star of the Month

Dec 2024

TCS

Awarded for exceptional dedication, ownership, and delivering impactful value additions to ongoing database operations.
